

Ofsted Registered Childminding Service

Inclusion Policy

This policy outlines the importance of inclusion in the childminding setting. Every child and parent will be welcomed and made to feel comfortable in the surroundings of this setting. Everyone will be treated and respected as individuals in their own right. I will always ensure the guidelines of the EYFS (Early Years Foundation Stage) are adhered to at all times, and that all visitors to the setting are treated inclusively. Every child will have access to all the equipment and activities providing it is safe and age appropriate.

I will challenge any form of prejudice, and will not tolerate any forms of discrimination against anyone in this setting. I will encourage all the children in my care to respect each other and I will provide an inclusive positive atmosphere that promotes equal opportunities.
